SUPERVISORY BOARD

INTERNAL RULES AND REGULATIONS

Updated as of May 30, 2018

PREAMBLE

By these Internal Rules and Regulations, the Supervisory Board of Publicis Groupe S.A. intends to complete and clarify the provisions of Subtitle II of the Company bylaws entitled “Supervisory Board”.

These Internal Rules and Regulations establish the principles governing the functioning of the Supervisory Board and the ethical rules that apply to its members, and describe its relations with the Management Board and the various Committees. The Internal Rules and Regulations are a purely internal document and do not bind third parties.

TITLE ONE

FUNCTIONING OF THE SUPERVISORY BOARD

Section 1

Supervisory Board Members’ Obligations under the Law and Company Bylaws

Before accepting his/her appointment, each member must ensure that he/she is aware of the general and specific obligations that pertain to his/her position. In particular, he/she must be cognizant of applicable regulatory and statutory provisions, the Company bylaws and these Internal Rules and Regulations, all of whose provisions are binding on him/her.

All members must comply with the laws and regulations that govern the position of Supervisory Board member of a *société anonyme* and, in particular, the rules with respect to:

- The definition of the powers of the Supervisory Board;
- Holding multiple offices;
- Agreements entered into between the Company and the member or a company of which he/she is a director, a supervisory board member, a person with management responsibilities or a shareholder with unlimited liability;
- Holding and using privileged information;
- Reporting transactions involving the Company’s shares or financial instruments relating to the Company’s shares;
- The obligation to hold the Company’s shares in registered form and to deposit them with a custodian;
- The periods during which they must refrain from trading in the Company’s shares.

Each member of the Board must hold in his/her own name, during his/her entire term of office, the minimum number of shares in the Company required by Article 13(V) of the Company bylaws, with the exception of the Supervisory Board member or members representing the employees pursuant to Article L. 225-72 paragraph 3 of the French Commercial Code.

The term of office of a member representing the employees shall begin at the date of appointment and end upon expiry of a four-year period. This term of office is renewable. The term of office may be terminated by anticipation under the conditions set forth by law, in particular in the event of termination of said representative's employment contract. Furthermore, should the conditions stipulated in Article L. 225-79-2 of the French Commercial Code cease to be fulfilled, the term of office of the employee representative(s) shall end after the meeting during which the Supervisory Board notes that it is no longer within the scope of this obligation.

Section 1-1

Independence and Conflicts of Interest

I – Supervisory Board members must perform their duties independently from each other and independently from the Management Board.

Accordingly, Supervisory Board members undertake to maintain their capacity to analyze, judge, decide and act independently and to resist all pressure, whether direct or indirect or internal or external to the Company, that may be exercised against them and, more broadly, not to seek or accept from the Company or its direct and/or indirect subsidiaries any benefits that may be considered as compromising their independence.

II – Members who become aware of any actual or potential conflict of interest that may involve him/her directly or indirectly shall inform the Supervisory Board thereof as soon as possible.

If a conflict of interest arises, the relevant member(s) must:

- Refrain from taking part in the discussions or any vote in connection with the matter at issue;
- Refrain from requesting or providing any type of document in relation with the matter at issue;
- If necessary, resign from his/her position.

At least 50% of the Supervisory Board's members must be independent. The members of the Board representing the employees are not taken into account to determine the percentage of independent members compared to the number of Supervisory Board members.

The criteria for assessing the independence of Supervisory Board members are taken from the AFEP-Medef code, as revised in November 2016, with the exception of the requirement that members' terms of office should not exceed twelve years. Given the fact that the Company has separated its management and supervision functions and in light of the Company's shareholding structure, the Supervisory Board has deemed it appropriate to adopt the following factors as criteria for assessing the independence of Supervisory Board members:

- Not holding or not having held any of the following positions during the five previous years:
 - employee or executive corporate officer of the Company;

- employee, executive corporate officer or member of the Board of Directors of an entity consolidated by the Company;
- Not being an executive corporate officer of a company in which the Company directly or indirectly holds a directorship, or in which an employee appointed as such or an executive corporate officer of the Company (currently in office or having held such office within the previous five years) is a member of the Board of Directors;
- Not being a client, supplier, investment banker or commercial banker:
 - that is of material significance to the Company or its Group; or
 - for which the Company or its Group accounts for a significant share of its business;
- Not having close family ties with a corporate officer;
- Not having been an auditor of the Company within the previous five years.

The Supervisory Board may deem that, although a Board member fulfills the independence criteria, he/she should not be classified as independent due to his/her specific situation or the specific situation of the Company, its shareholder structure, or any other reason. Conversely, the Board may deem that a Board member who does not fulfill these criteria is nevertheless independent.

Each member who is classified as independent must immediately inform the Chair if he/she becomes aware of any change in his/her personal situation in relation with these criteria.

Section 1-2

Information – Confidentiality – Inside information

I – The Management Board provides Board members, in a timely manner, with all documents and information necessary for them to perform their duties.

Board members must themselves determine if the information provided to them is sufficient and, if necessary, they may obtain all documents they consider of use, subject to confidentiality obligations.

The Management Board regularly informs the Board of the financial and cash positions and the commitments of the Company and the Group, in accordance with the laws and the provisions of the bylaws and these Internal Rules and Regulations, in particular the section on the Audit Committee.

Between Board meetings, the Management Board will provide Board members with all necessary information about the Company and the Group if justified by the importance or urgent nature of the information.

Board members may meet with the Group's main senior managers if they so wish, provided they give prior notice to the Management Board Chair.

II – All information, regardless of its type or form, concerning, in particular, the Company and its direct and/or indirect subsidiaries provided to Supervisory Board members in the performance of their duties is provided to him/her personally.

Accordingly, each Supervisory Board member is personally responsible for confidential information he/she holds and must keep strictly confidential information he/she receives at Supervisory Board or Committee meetings or during private meetings he/she attends. Members are bound by an obligation to maintain professional secrecy that goes beyond a mere duty of non-disclosure (*obligation de discrétion*).

If the Supervisory Board secretary is not a Board member, he/she is subject to the same confidentiality obligations as Board members. The Supervisory Board Chair ensures that the secretary is informed of these obligations.

III – When members of the Supervisory Board are privy to inside information, as defined by stock market regulations, they shall refrain from using or disclosing such information.

Pursuant to Article 7 of (EU) regulation No. 596/2014 on market abuse, inside information is information of a precise nature, which has not been made public, relating, directly or indirectly, to one or more issuers or to one or more financial instruments, and which, if it were made public, would be likely to have a significant effect on the prices of those financial instruments or on the price of related derivative financial instruments.

In the event of actual or attempted market abuse, as defined by the aforesaid regulations (insider trading, price manipulation, unlawful disclosure of information), Supervisory Board members would be liable for sanctions under criminal or administrative law, notably in pursuance of Articles L. 465-1 et seq. or L. 621-15 of the French Monetary and Financial Code.

Furthermore, members of the Supervisory Board must abide by the statutory regulations and by the Company's Internal Rules and Regulations intended to prevent market abuse ("closed periods" and the obligation to notify to the French financial markets authority (AMF – *Autorité des marchés financiers*) all and any trading relating to the Company's shares or relating to any financial instrument linked to the Company's shares).

Section 2

12. The Management Board may, on behalf of the Company, acquire or sell all processes, patents, trademarks and other industrial property rights, and acquire and grant all licenses and sublicenses.

13. The Management Board may form or participate in the formation of all French or foreign companies, by contributing assets or by subscribing for or purchasing shares, bonds, equity stakes or any rights whatsoever. It may cause the Company to invest in all partnerships, syndicates or economic interest groups. It may authorize all direct or indirect equity stakes and all industrial, commercial, financial, real property or movable property transactions or ventures that are in any way related to the Company's purposes, either abroad or in France. It may sell all equity stakes, in whole or in part, subject to prior referral of such matters to the Supervisory Board's Finance, M&A and Investment Committee in accordance with the provisions of Section 10-1 hereinunder.

14. The Management Board appoints the person who will act as the Company's permanent representative if the Company is appointed director or supervisory board member of another *société anonyme*. It may adopt measures concerning the composition of and changes to subsidiaries' boards of directors and executive management.
